

**FOR IMMEDIATE RELEASE****Darin Crowder Joins Ross & Baruzzini as Director of Electrical Engineering**

Saint Louis, MO – July 28, 2011 – Ross & Baruzzini, a globally recognized engineering and architectural planning, design and consulting firm, has announced the appointment of Darin Crowder as Director of Electrical Engineering for the Saint Louis office. Crowder will provide technical leadership, detailed project planning, and overall organization of electrical personnel resources to facilitate the engineering of projects and processes which meet corporate quality, cost, and scheduling objectives.

Crowder brings nearly 20 years of experience of electrical engineering design services. His expertise includes design of large scale, complex health care, higher education and government facilities. Prior to his position at Ross & Baruzzini, Crowder served as Senior Engineer and the Electrical Department Supervisor for KJWW in St. Louis, Missouri. In this position, he served many roles such as Project Manager and Lead Electrical Engineer. He was also responsible for scheduling of assignments, quality control, mentoring, and some business development.

“Darin brings a wealth of technical experience to the firm as well as a strong track record in successful client and project management,” remarked Bill Overturf, Senior Vice President at Ross & Baruzzini. “His commitment to quality and his collaborative design philosophy will allow us to maintain and attract new clients in the higher education, healthcare and government industries.”

Crowder holds a Bachelor of Science degree in Architectural Engineering from Kansas State University.

**About Ross & Baruzzini, Inc.**

Ross & Baruzzini, Inc. ([www.rossbar.com](http://www.rossbar.com)) solves clients' most significant and complex architectural, engineering, and technological challenges. We provide building design solutions – and the systems that bring them to life and put them to work – in ways that are innovative, practical and enduring. Ross & Baruzzini specializes in design for facilities and infrastructure in transportation, healthcare, higher education, government and facilities requiring 24/7 operations. Founded in 1953, Ross & Baruzzini is continually ranked as one of the top engineering firms in the nation. The company has regional offices in Miami, Indianapolis, Chicago, and New York and corporate headquarters in St. Louis.
